Feedback Criteria

Layout and Appearance

General	YES	NO	Feedback
Is the resume of appropriate length?	√		The length is ideal for a professional CV, focusing on key skills, education, and experience without unnecessary details.
Is formatting consistent? (Spelling, Punctuation, Grammar, and Mechanics)	√		The CV formatting is mostly consistent. Aligning contact details and rephrasing project descriptions could improve clarity.
Is the template professional?	√		The template is professional but could benefit from better spacing and alignment in the contact information section
Does the image look professional? *Using an image is not mandatory			No image was included, which is acceptable for a professional resume.

Content

General	YES	NO	Feedback
Appropriate headings are included? (Education/ Experience etc.)	√		he headings are comprehensive, covering education, skills, projects, and extracurricular activities effectively.
Does the accomplishment statement start with action verbs?	√		Statements generally use action verbs, but rephrasing some descriptions to emphasize outcomes can add impact.
Are the grades/results included where appropriate?	√		Academic grades are included for both G.C.E A/L and modules. This adds credibility.
Are the achievement listed appropriate?	√		Achievements are relevant and demonstrate academic and extracurricular success.

Are the certifications relevant?	√		Certifications align well with the technical skills and professional profile presented.
Are 2 referees listed?	√		Two referees are included with detailed contact information, which adds professionalism.
